

Gardlink

ELECTRONIC POINT OF SALE SYSTEM

OFFERING YOU A ONE-STOP SALES SOLUTION

For over 25 years Gardners has been continually supporting independent retailers with a bespoke EPOS system. The software turns a normal PC into a full cash register, giving you the tools you need, to run your business effectively.

Our EPOS hardware and software system delivers functionality, reliability and performance, making it a valuable asset to your shop.

Its seamless integration with our Gardlink software simply enhances the system further, making it a one-stop sales solution for you, allowing real-time updates to your stock management database.
