THE ONE STOP SALES SOLUTION

For over 25 years Gardners has been continually supporting independent retailers with a bespoke EPOS system. The software turns a normal PC into a full cash register, giving you the tools you need, to run your business effectively.

Our EPOS hardware and software system delivers functionality, reliability and performance, making it a valuable asset to your shop.

Its seamless integration with our Gardlink software simply enhances the system further, making it a one stop sales solution for you, allowing real-time updates to your stock management database.

KEY FEATURES

✓ Professional and durable touch screen interface, with sleek till, customer display and receipt printer

✓ Software layout for quick and easy use

✓ Product scanning linked to Gardlink for fast sales processing

✓ Stock control for non-book products, using system barcodes

✓ Customer loyalty card integration

✓ Create promotions on full or selected product ranges

✓ Gift receipt and Full till receipt printing, with VAT breakdown

✓ Easy to configure shop departments and payment types.

✓ Greatly improve the shop stock accuracy

✓ Detailed reporting by dept, till, promotions or user

✓ Sales, promotions & discounts reporting, with simple CSV file exporting options.

✓ Clear daily X and Z reads for accounting, compatible with a range of accountancy programs

✓ Expandable to allow multiple EPOS stations, with various hardware options

✓ New silent thermal printer, reduces consumable levels

✓ Reduced counter clutter with a mounted display

✓ Fully integrates with Gardlink 4 stock management system

LET'S START A CONVERSATION

If you would like a software demonstration, and discuss how it can benefit your business, please contact Gardners IT Services who will be happy to assist.
