

Gardlink

STOCK CONTROL AND TILL SOFTWARE IN ONE PROGRAM

Buy, sell, manage stock, report, return, search and more

Gardners

GROW YOUR BUSINESS WITH SOFTWARE YOU CAN TRUST

The Gardlink system has been the stock control software of choice for independent booksellers for more than 30 years and is ideally suited to the book retail environment.

Gardlink is the only software that has direct access to pricing and stock availability for Gardners, the UK's leading independent book wholesaler. With it, booksellers can instantly access Gardners' database of 6 million+ catalogue lines of printed and digital books, as well as an extensive range of non-book items including DVDs, Blu-ray, music CDs, vinyl, toys, stationery, and gifts.

Gardlink is connected to your Gardners.com account, providing clear visibility of outstanding backorders, and supplied lines on invoice. Products from alternative suppliers can also be added easily, therefore safely storing all order and sales history in one secure program.

Time and cost efficiency have been top considerations in the development of the software, which offers a user-friendly, non-technical layout. In addition to this Gardlink has a direct link to book industry services.

GARDLINK SEAMLESSLY INTEGRATES WITH KEY INDUSTRY PARTNERS

Generate multiple book lists via Nielsen's online portal. With its intelligent filters, you can create lists for your core stock ranges and cross-check your stock against national bestseller charts.

Gain invaluable data about product popularity; find out how many other Edelweiss-affiliated shops have an item on order, in stock, or have sold it within the last 1-3 months. Access to an online portal gives you tools for product performance analysis, and shared book reviews.

Seamlessly add your inventory to Google Shopping search results so that nearby customers can see all the products you hold in-stock. Users are encouraged to click and collect from your shop, generating more footfall and providing an easy-to-maintain online presence.

Send your electronic returns requests to registered suppliers for automated processing of stock levels and history.

See which suppliers are listing the titles you need. Manage and send orders direct to PubEasy from Gardlink.

GET FRIENDLY SUPPORT
FROM BOOK TRADE PROFESSIONALS

OUR SUPPORT TEAM

AT YOUR SERVICE

Readily available via telephone and email, our support team will assist and support you in getting the most from Gardlink from the moment you sign up, from installation to everyday use.

The team will work closely with you to ensure you and your team can use the system with confidence, ensuring all training is up-to-date and supporting new staff members as your business grows.

The Help Desk is open from 09:00 - 17:30 Monday to Saturday, all year round. Extra cover on Sundays through December ensures you have all the support needed during the busy festive season.

OUR CUSTOMERS SAY ★★★★★

The Gardlink team are always helpful, polite, and friendly. They are quick to respond to software problems. They are always patient with non-technical booksellers. [Cathy Slater, Dulwich Books](#)

The Gardlink EPOS system is very comprehensive, and provides functionality for every type of bookselling business. A lot of great features, so up to any individual user, how they use them. The support team are excellent, friendly, courteous and always helpful with excellent response times. [Carolyn Clapham, Storytellers Inc.](#)

I have been extremely happy to use Gardlink for the past 19 years, in my Indie high street business. When dealing with the introduction of GDPR, the team removed all the stress and I was confident that we were protected with what seemed at the time an extremely difficult issue to overcome with our system. [Elaine Silverwood, Silverwood Events](#)
